TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9824

AMENDING EXECUTIVE ORDER NO. 9154 OF MAY 1, 1942, AUTHORIZING CERTAIN EXCLUSIONS FROM THE OPERATION OF THE CIVIL SERVICE RETIREMENT ACT OF MAY 29, 1930, AS AMENDED

By virtue of and pursuant to the authority vested in me by section 3 (b) of the Civil Service Retirement Act of May 29, 1930, 46 Stat. 470, as amended by the act of January 24, 1942, 56 Stat. 15, and the act of March 7, 1942, 56 Stat. 147, and in the interest of the internal management of the Government, section 1 of Executive Order No. 9154 of May 1, 1942, is hereby amended by the addition thereto of a new paragraph (k) reading as follows:

(k) Consular agents appointed under authority of section 551 of the Foreign Service Act of 1946, approved August 13, 1946 (Public Law 724, 79th Congress).

This order shall be effective as of November 13, 1946.

HARRY S. TRUMAN

THE WHITE HOUSE,

January 28, 1947.

Chapter IV—Military Education

PART 403—PROMOTION OF RIFLE PRACTICE

MISCELLANEOUS AMENDMENTS

Amend paragraph (c) of § 403.5 in the following respects:

Paragraph (c) (1) is revised; the third sentence of paragraph (c) (4) (iii) is amended by substituting the words "army commander" in lieu of "service commander," and subparagraph (4) (iii) (d) is revised. The paragraph as amended is set forth below:

§ 403.5 *Rifle and pistol competitions in schools and colleges.* * * *

(c) *Annual indoor rifle matches—(1) Indoor rifle matches.* A series of indoor rifle matches will be conducted each year so far as may be practicable among those institutions conducting military training under the supervision of the War Department which have the proper facilities and where conditions are otherwise favorable. For this purpose the institutions will be grouped as follows:

(i) Senior units in universities and colleges (classes CC, MC, and JCMI).

(ii) Junior units in essentially military schools (classes MS and MI).

(iii) All other junior units (class CS) and those schools and colleges organized under section 55c, National Defense Act, and section 1225, Revised Statutes. In army areas where the number of institutions in any group is not sufficiently large to insure a satisfactory competition for the army area intercollegiate matches, arrangements should be made by the army commander for the participation of these institutions in the matches of an adjoining army area.

* * * * *

(4) *National intercollegiate matches.*

* * *

(iii) *Stage competitions.* * * * If it is found that the firing of one stage each week is impracticable, the army commander, on application * * *

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1075]

R. M. O'NEAL

R. M. O'Neal, Pineville, Louisiana, on October 30 or 31, 1946, without authorization from the Civilian Production Administration began the construction of a one-story, brick and concrete block building, located at 606 Main Street, Pineville, Louisiana, the estimated cost of which is approximately \$25,000. R. M. O'Neal was familiar with the restrictions on construction and his beginning and carrying on of such construction without authorization constituted a wilful violation of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1075 Suspension Order No. S-1075. (a) Neither R. M. O'Neal, his successors or assigns, nor any other person shall do any further construction on the premises located at 606 Main Street, Pineville, Louisiana, including putting up, altering or completing the structure, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) R. M. O'Neal shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for authorization to do any construction.

(c) Nothing contained in this order shall be deemed to relieve R. M. O'Neal from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 1, Direction 1, as Amended Jan. 29, 1947]

CHANGES MADE BY CUSTOMERS IN ORDERS PLACED WITH MANUFACTURERS

The following amended direction is issued pursuant to Priorities Regulation 1:

(a) This direction tells what happens when a customer, having placed a rated order with a manufacturer, wishes to make a change in that order.

(b) The general rule is that any change in a customer's order constitutes a cancellation of the earlier order and must be considered as a new order received on the date of the change if (but only if) the change will require the manufacturer to interfere with his production. For example:

(1) A change in shipping destination does not constitute the placing of a new order.

(2) An increase in the total amount ordered is a new order to the extent of the increase unless it can be filled with only a negligible interference with sequence of later orders.

(3) A change in the date of the delivery, whether advanced or deferred, when made by the customer is a new order if it interferes with production, or delays delivery on an equal or higher rated order.

(4) Deleted Oct. 1, 1945.

(5) A change in preference rating will not constitute a new order and the order must be treated as if it had carried the new rating at the time the old rating was received except that:

(i) Material specifically produced for a rated order is not to be diverted and delivered under a higher rated order if such material is completed at the time the rerating is received, or is in production and scheduled for completion within fifteen days thereafter; and

(ii) No person is required by reason of a rerating to terminate or interrupt imme-

RULES AND REGULATIONS

diately a schedule of production or operations for the next forty days where it would result in a substantial loss of production or delay in operations.

(6) A reduction in the total amount ordered will presumably not require a change in the manufacturer's schedule and will not constitute a new order. If the quantity is reduced below a minimum production quantity, the manufacturer may insist on the delivery of not less than the minimum production quantity as explained in interpretation No. 3. If the customer is not willing to order that amount, the manufacturer may reject the order. The manufacturer may not discriminate between customers in requiring delivery of minimum production amounts or in rejecting orders.

(7) When the customer directs the manufacturer to hold or suspend production without specifying a new delivery date, the order must be considered cancelled. If requested to do so within ten days after receiving such an instruction, the manufacturer must reinstate the order as nearly as possible to its former place in his proposed schedule of deliveries as long as the reinstatement does not cause loss of production or delay in the scheduled deliveries on equal or higher rated orders. Any request for reinstatement made after ten days shall be treated as the placing of an entirely new order.

(8) Where minor variations in size, design, capacity, etc., are requested by the customer and can be arranged by the manufacturer without interfering with his production, such changes do not constitute a new order.

(c) Where a change in an order constitutes a new order the conditions existing at the time the changes are received govern the acceptance of the order and its sequence in delivery under the rules of Priorities Regulation No. 1. If a customer changes his order in such a way as to constitute a new order, but finds that as a new order it will not be scheduled for delivery at the time required by the customer, he may, if he likes, request reinstatement of his original order within the time and manner provided in paragraph (b) (7) above.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1074]

KEITH SPALDING

Keith Spalding, residing at the Huntington Hotel, Pasadena, California, is the owner of the property at 4201 Oak Grove Drive, Glendale, Los Angeles County, California. Subsequent to March 26, 1946, he purchased an old stable, divided it into sections, transported it to his premises, prepared a cement foundation therefor, widened the stable four feet, and otherwise remodeled and reconstructed the same on the new foundation, at an estimated cost of approximately \$45,000, without authorization from the Civilian Production Administration. Said stable was not designed to be

used in connection with an existing dwelling, or for commercial or industrial purposes. The beginning and carrying on of this construction, at a cost in excess of \$200 constituted a grossly negligent violation of Veterans' Housing Program Order No. 1. This violation has diverted critical material to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

S-1010.1074 Suspension Order No. S-1074. (a) Neither Keith Spalding, his successors or assigns, nor any other person, shall do construction on the premises located at 4201 Oak Grove Drive, Glendale, Los Angeles County, California, including completing, putting up or altering of any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Keith Spalding shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Keith Spalding, his successors or assigns, from any restriction, prohibition or provision contained in any order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Chapter XXIII—War Assets Administration

[Reg. 13]

PART 8313—STANDARD GENERAL PURPOSE AND SPECIAL MACHINERY

War Assets Administration Regulation 13, October 18, 1946, entitled "Standard General Purpose and Special Machinery" (11 F. R. 13203), is hereby revised by amending Exhibit D attached hereto as herein set forth.

Sec.

8313.1 Definitions.

8313.2 Purpose and scope.

8313.3 Determination of base price and period of active use for Classes I, II, and III.

8313.4 Determination of sale price.

8313.5 Scrapping and salvage of machinery.

8313.6 Records and reports.

8313.7 Regulations to be reported to the Administrator.

EXHIBIT A—Table of percentages for Class I machines.

EXHIBIT B—Table of percentages for Class II and III machines operating under 750 RPM.

EXHIBIT C—Table of percentages for Class II and III machines operating over 750 RPM.

EXHIBIT D—Table of fixed prices for machines specifically listed.

AUTHORITY: §§ 8313.1 to 8313.7, inclusive, issued under Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Public Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and Executive Order 9689 (11 F. R. 1265).

§ 8313.1 Definitions. (a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Commercially unsalable machinery" as used herein is distinguished from property of no commercial value as used in Part 8319¹ and means machinery (i) which by reason of its condition resulting from damage, wear, obsolescence, or otherwise has no reasonable prospect of sale except as scrap or salvage or (ii) with respect to which the estimated cost of care and handling and disposal will exceed the estimated proceeds unless it is promptly sold as scrap or salvage.

(2) "Administrator" means the War Assets Administrator.

(3) "Salvage" means property that is in such a worn, damaged, deteriorated or incomplete condition, or is of such a specialized nature that it has no reasonable prospect of sale as a unit, or is not usable as a unit without major repairs or alteration. Salvage has some value in excess of its basic material content because it may contain serviceable components or may have value to a purchaser who may make major repairs or alterations. Salvage includes used containers and cable reels.

(4) "Scrap" means property that has no reasonable prospect of sale except for its basic material content.

(5) "Standard general purpose machinery" includes new and used machine tools and machines (with the exception of special machinery) divided into the designated four classes:

CLASS IV

Major Group 34:

Fixed price metalworking machinery as specifically listed in Exhibit D of this part.

(6) "Special machinery" includes machines designed for and used exclusively in the production of war material such as but not limited to:

Special gun reaming, rifling and chambering machines
Gun boring and turning lathes
Shell turning lathes
Shell tappers
Small arms ammunition machines
Special military tank manufacturing machines
Special military aircraft manufacturing machines
Special shipbuilding machines

(7) "Attachments and tooling" means those accessories to a basic machine, which, when applied to the basic machine renders possible an additional operation or process or the functions for which the machine was intended. It includes but is not limited to vertical heads, gear cutting accessories, index heads, feeding accessories, tapering equipment, chucks, jigs, fixtures, gauges, moulds, tool holders, followers, etc.

§ 8313.2 Purpose and scope. The purpose of this part is to provide a fixed price policy for commercially salable new and used standard general purpose machine tools and machines. It also provides for the scrapping and salvaging of all other general purpose machinery and of any special machinery determined hereunder to be commercially unsalable. Prices at decreasing percentages of original cost are specified for Classes I, II and III above up to stated limits of active use and maximum prices are provided for sales of machinery in active use beyond such limits. Fixed prices without reference to decreasing percentages of original cost are specified for those machines in Class IV above. This part applies to all sales in the continental United States, not including its territories or possessions, made after the effective date hereof by the disposal agency and to all sales by owning agencies of standard general purpose machinery pursuant to Part 8306¹ or otherwise, but is not applicable to any contract of sale of machinery entered into prior to the effective date of this part, or to any sale of machinery which has been delivered to the purchaser or to any carrier for the account of the purchaser prior to the effective date of this part.

RULES AND REGULATIONS

§ 8313.3 Determination of base price and period of active use for Classes I, II and III. (a) Base prices for machinery to be sold hereunder shall be determined as follows:

(1) *Class I.* The base price of machinery falling within Class I shall be the original price at which the manufacturer sold the machine. The selling agency shall determine the original price (f. o. b. the plant of the machine manufacturer) of the machine including electrical equipment. Standard or special attachments or tooling shall be priced and disposed of pursuant to § 8313.4 (c) of this part. In the case of machine tools and metal forming and shaping machines manufactured prior to March 1, 1941, the March 1, 1941 price of the nearest equivalent machine may be taken as the original price. In the case of standard general purpose machines other than machine tools and metal forming and shaping machines manufactured prior to October 1, 1941, the October 1, 1941 price of the nearest equivalent machine may be taken as the original price.

(2) *Classes II and III.* The base price for machinery falling within classes II and III shall be the original price as provided for in subparagraph (1) above or the original manufacturer's current retail price for the same or the nearest equivalent unit.

(b) The selling agency shall determine the period of active use of the machine on the basis of the best information reasonably available. The period of active use shall be considered to run from the estimated date the machine was originally put into use to the date of sale, if the machine is then still in use. If the machine is not in use at the time of sale, the period shall run to the estimated date when the machine last became idle.

§ 8313.4 Determination of sale price—(a) Classes I, II, and III. (1) Exhibits A, B, and C contain tables of percentages applicable to various periods of active use of machinery to be sold hereunder. The price at which a machine shall be sold shall be computed by applying to the base price determined in accordance with § 8313.3 (a) the percentage appearing in the appropriate exhibit opposite the period of active use of the machine calculated in accordance with § 8313.3 (b). In the case of new machines where no period of active use exists, no greater percentage than that specified for "less than one month" shall be applied. The appropriate exhibit shall be determined as follows:

Exhibit

Any machine in Class I.....	A
Any machine in Class II.....	A
Any machine in Class III operating under 750 revolutions per minute.....	B
Any machine in Class III operating over 750 revolutions per minute.....	C

(2) In determining which of the two columns of percentages shall apply in Exhibits A, B, and C, those appearing in column b shall be applied where the buyer is the person who is using the machine at the time of sale, or if the machine is then idle, the person who last used it and has possession thereof, and

the percentage appearing in column "a" shall be applied where the sale is to any other buyer. The price computed in accordance herewith shall be the sales price f. o. b. the location of the machine at the time of sale, except that in the case of sales made to a purchaser in possession, it shall be the sales price of the machine at its location.

(3) A sale of a standard general purpose machine in Class III with a period of active use in excess of the highest period of active use specified in the appropriate exhibit may be made at the best price obtainable but not in excess of the price applicable to such a machine with the highest period of active use specified in such exhibit.

(b) *Class IV.* Exhibit D contains a table of fixed prices for those machines listed thereon and identified by code designation, name of manufacturer, model number, and capacity. A machine shall be considered to come within Class IV only when completely identified by, and synonymous with, the description contained in Exhibit D. The prices contained in Exhibit D shall be applied in sales of all Class IV machines. *Provided however,* That when the buyer is the person who is using the machine at the time of sale, or if the machine is then idle, the person who last used it and has possession thereof, then in such event the sales price to such buyer shall be the fixed price listed in Exhibit D, plus five (5) per cent thereof.

(c) *Attachments and tooling.* (1) Standard or special attachments or tooling sold in conjunction with a basic machine in Classes I, II and III, whether or not attached thereto, and which have value to the purchaser other than as scrap, shall be sold at a price to be computed on the same period of active use determined for the basic machine sold in conjunction therewith and separate findings of active use shall not be required for such attachments or tooling.

(2) If such standard or special attachments or tooling are attached to a basic machine, and if the cost of handling and removal would exceed the estimated return to the Government if disposed of as salvage or scrap, then in such event the standard or special attachments or tooling may be included in the sale as scrap, at the best price obtainable: *Provided,* That a scrap warranty⁸ is obtained from the purchaser thereof.

§ 8313.5 Scrapping and salvage of machinery. (a) The Administrator has determined that because of the cost of care, handling, and disposition, surplus machinery of any type which was manufactured during the year 1921 or any year prior thereto is commercially unsalable and all such machinery shall, subject to the provisions of paragraph (d) of this section, upon a determination in writing by the agency in possession that the machinery was manufactured during the year 1921 or any year prior thereto, forthwith be disposed of as salvage or scrap.

(b) From time to time, the Administrator may determine what additional types or classes of special machinery are

commercially unsalable. Upon notice of such determinations, the owning and disposal agencies shall, subject to the provisions of paragraph (d), forthwith dispose of any such types or classes of surplus property in their possession as salvage or scrap.

(c) Any machinery which the disposal agency or any owning agency determines in writing to be commercially unsalable shall be disposed of as salvage or scrap or otherwise by the agency in possession pursuant to applicable regulations of the Administrator. In connection with such determinations owning agencies may request the advice and assistance of the disposal agency.

(d) Prior to the sale of a machine which is to be disposed of as salvage or scrap owning and disposal agencies may, insofar as is consistent with the provisions of Part 8319, dispose of such property by donation to such nonprofit institutions and instrumentalities as make application therefor; *Provided,* That such procedure shall not delay or postpone any such disposal as scrap or salvage for a period in excess of thirty (30) days.

(e) *Deleted* (October 18, 1946).

§ 8313.6 Records and reports. Owing and disposal agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of the act. Reports shall be prepared and filed with the Administrator in such manner as may be specified by order issued under this part subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 8313.7 Regulations to be reported to the Administrator. Each owning and disposal agency shall file with the Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

This revision of this part shall become effective January 15, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

JANUARY 15, 1947.

FEDERAL REGISTER**Chapter VI—Federal Public Housing Authority****PART 621—RESETTLEMENT PROGRAM; POLICY****ELIGIBILITY FOR TENANCY**

1. Section 621.1 is hereby amended, effective January 24, 1947, to read as follows:

§ 621.1 Eligibility for tenancy—(a) Subsistence homesteads. Eligibility requirements for admission have been established for each separate project and are based on the economic factors prevalent in the area in which the project is located, and on the income, financial condition, employment prospects, and composition and size of the family. The requirements of any project are available from the project manager. Subsistence homestead tenants who have had one or more years of satisfactory tenure as renters are eligible to apply for a purchase contract. Occupancy preference will be given to former residents who have been honorably discharged from the armed services. This preference consists of priority over the outside waiting list, but not over the waiting list of resident transfers within the project. *Provided*, That they meet current eligibility requirements: *And provided further*, That such former tenants moved from the project not more than 60 days prior to the actual date of entry on duty, and applications for readmission are filed within one year of the actual date of separation from the armed forces.

(b) **Greenbelt towns—(1) Conditions for tenant admission.** There shall be accepted as tenants only applicants who meet the following conditions:

(i) **Family.** The term "family" shall mean a natural family consisting of a family head and one or more other persons related to the head by blood, marriage or adoption. In addition to a natural family, it may include other persons known to have lived regularly as an inherent part of the family group. The term "family" shall not include a group of unrelated persons living together, lodgers, or persons living alone.

The only exception to this requirement shall be to permit the admission of a single person or two unrelated persons to the one-room apartments at Greenbelt.

(ii) **Net family income at time of admission.** Net family income at the time of admission shall not exceed the maximum income limit for admission established in the approved management program.

(iii) **Net assets.** The net assets (not including personal and household effects) of the family shall not exceed an amount determined by the General Field Office.

(2) **Evidence of tenant eligibility.** The Community Manager shall obtain a written statement from each family applying for admission setting forth the facts which relate to its eligibility. The manager shall verify and certify to the accuracy of these statements for each family admitted.

(3) **Preference.** There shall be no discrimination in the selection of tenants because of religious, political, or other affiliations. Among eligible applicants, preference shall be given first to families of servicemen and to families of veterans who have been discharged (other than dishonorably) from, and to families of servicemen who died in, the armed forces of the United States, where application for admission is made not later than July 1, 1950. Within the serviceman and veteran category, and as among other eligible applicants, preference shall be given on a uniform and objective basis to those in the greatest need, giving consideration to the degree of housing need and such other factors of need as the General Field Office shall determine.

In the application of preference policies the following definitions shall be used:

(i) **"Veteran."** A veteran of World War II shall mean a person who has served in the military or naval forces of the United States for any period of time on or after September 16, 1940, and prior to the termination of the present war (a date yet to be determined) and who has been discharged or released therefrom under conditions other than dishonorable. The military or naval forces of the United States means the Army, Navy, Marine Corps, Coast Guard and, since July 29, 1945, the commissioned corps of the United States Public Health Service.

(ii) **"Serviceman."** A serviceman shall mean a person who is currently serving (until the termination of the present war) in the military or naval forces of the United States (which include the commissioned corps of the United States Public Health Service).

Persons or families of persons who are serving or who have served in the Merchant Marine, the Red Cross, UNRRA, etc., are not eligible for admission as veterans or families of veterans or servicemen.

(iii) **"Family" of veteran or serviceman.** A group of persons which constitutes a "family" shall be considered the family of a veteran or serviceman for eligibility purposes under the following circumstances:

(a) When the veteran or serviceman is living with the family, in which case he need not necessarily be the family head or principal wage earner.

(b) When the veteran or serviceman is the natural family head or principal wage earner but is temporarily absent from home by reason of a duty assignment, employment or school attendance in another locality, or hospitalization.

(c) When the veteran or serviceman, a natural family head, is deceased (during or subsequent to military or naval service), or is permanently absent from his family by reason of divorce, separation, desertion or permanent hospitalization. (The remarriage of a divorced spouse or a surviving spouse of a deceased veteran or serviceman shall terminate their status as his family.)

(4) **Occupancy standards.** The Community Manager shall lease dwelling ac-

RULES AND REGULATIONS

commodations to tenants in accordance with objective standards of health and decency approved by the General Field Office, taking into consideration the size of the dwelling and the family size and composition (i. e., number, age, sex and family relationship of the occupants). These standards shall govern the size of dwellings permissible for continued occupancy as well as admission.

(5) *Definition of "net family income."* This revised definition of net family income shall be used in determining eligibility and the rent to be charged for all tenants admitted on or after January 1, 1947. It shall apply to present tenants at the time of the next project reexamination. If a tenant applies for a reduction in rent before the date of the project reexamination because of a change in income, a reduction in rent shall be made only if it is warranted in accordance with this revised definition. No increases in rent shall be made for present tenants until the project reexamination. Net family income shall mean aggregate family income as defined in subdivision (i) of this subparagraph less deductions therefrom as specified in subdivision (ii) of this subparagraph.

(i) *Aggregate family income.* Aggregate family income shall include the following income, before any deductions, received by all members of the family who actually occupy or are actually to occupy the dwelling:

(a) Wages and salaries (including compensation for overtime), and all other earnings and compensation for personal services, such as commissions, fees, tips, etc., including the cash value of any compensation in kind, such as meals or food. Aggregate income includes the full amount of earnings before pay-roll deductions are made for any purpose.

(b) Net profits from the operation of a business or profession.

(c) The full amount received from pensions, annuities, retirement income, and other similar types of periodic receipts.

(d) Payments in lieu of earnings, such as unemployment compensation, other social security benefits, dismissal wages, benefits in lieu of earnings other than lump-sum payments under health and accident insurance, and workmen's compensation other than lump-sum payments.

(e) Cash relief receipts and the value of determinable relief allowances in kind.

(f) Periodic and determinable allowances, alimony, contributions and gifts.

(g) Interest, dividends, and net earnings of any kind from real or personal property.

The following types of receipts are excluded from aggregate income:

(1) Amounts which are specifically received for, or are a reimbursement of, the costs of illness or medical care.

(2) Casual and irregular gifts.

(3) Casual and sporadic earnings of minor children.

(4) Income from boarders and lodgers (since such income will not be realizable after admission to a public housing project).

(5) Lump-sum additions to family assets, such as inheritances, insurance payments, capital gains, and settlements for personal or property damages. (If such sums are substantial, the exclusion of the families in question will be considered in connection with ineligibility because of the amount of capital assets.)

(ii) *Deductions from aggregate family income.* The following items shall be deducted from aggregate family income to determine net family income:

(a) Special occupational expenses necessary to employment and for which no reimbursement is made by the employer, but only to the extent by which such expenses exceed normal and usual expenses (e. g. noon-day meals and transportation to work) incident to employment.

(b) Deductions from wages for social security, for pension or retirement funds, or for health, accident, or medical benefit plans, if required by law or required by the employer as a condition of employment.

(c) Amounts actually paid, if reasonable and necessary, for the support of a person or persons not residing with the family but for whose support one or more members of the family are legally or morally responsible; but not including expense incurred for the support of children away from home for purposes of normal and voluntary education.

(d) Amounts actually paid, if reasonable and necessary, for the care of children or aged or incapacitated family members in order to permit the employment of a sole worker.

The following items shall not be considered as allowable deductions: payroll deductions for income tax, payroll deductions not required by the employer as a condition of employment for pensions or other benefits, payments for war bonds, group health, group or other insurance, bills and garnishments, installment purchases, repayment of loans, or interest and finance charges on such items.

(iii) *Definition of net family income at time of admission and net income at time of reexamination.* Net income at the time of admission (or at the time of reexamination) shall be the amount of the net family income anticipated for the twelve months succeeding the expected date of admission (or date of reexamination). In determining the net family income anticipated for the next twelve months, due regard shall be given to determinations which the Community Manager shall make both of the current rate of income and the actual net income received from various sources in the past twelve months.

(iv) *Special provisions for families of servicemen.* In computing the aggregate income of a serviceman's family, all base pay, extra pay and allowances received by the serviceman, whether residing with his family or elsewhere, that portion of the family dependency allowance contributed by the Government and all other income received by the family from other sources shall be included.

In computing the net income of the family of a serviceman not residing with the family, in addition to such other amounts as may be allowed any tenant as a deduction from aggregate income in accordance with subparagraph (3) (ii) of this paragraph, a deduction shall be allowed to meet the special occupational expenses of the serviceman incurred by reason of his living away from home. Except as provided below, such deduction shall be not more than (a) the first \$50 of monthly base pay or, in the case of enlisted men, so much thereof as remains after the serviceman's mandatory contribution to the family dependency allowance, plus (b) 25 percent of his base pay over \$50 per month. In exceptional cases it may be determined that the allowable deductions provided above are not adequate to meet the serviceman's needs. In such cases, deviation from the policy stated above may be permitted provided the tenant shows to the satisfaction of the Community Manager that extraordinary expenses of the serviceman justify additional allowances. (The attached exhibit contains tables showing rates of pay for the various ranks of servicemen, the amount of family allowances for a wife and children and allowable deductions for servicemen away from home.)

(v) *Special provision for families with veteran members attending education or training institution.* In determining aggregate family income, a veteran attending an educational or training institution shall be considered a member of the family and his entire income included in aggregate family income where (a) the veteran is living with the family, or (b) the veteran is not living with the family but is the head of the family. A veteran son or daughter who is absent from home while attending school and who is not the family head is not considered a family member for this purpose and only such income as he or she may actually contribute to the family shall be included in determining aggregate family income. In any case where the veteran's relationship to the family is other than family head, son or daughter, the manager shall make an appropriate determination based on the facts in the particular circumstance. The amount of \$65 per month, (the subsistence allowance payable to a veteran without dependents under the "GI Bill of Rights") shall be deducted from aggregate income to determine net income in the case of a family head who is absent from home while attending an educational or training institution and who is receiving subsistence under the "GI Bill of Rights" or the Veteran's Vocational Rehabilitation Program. In exceptional cases an amount greater than \$65 per month may be deducted if it is proved and documented that a greater expense is actually incurred and is reasonable and necessary for the purpose intended. No deductions shall be allowed for the support of a veteran who is living with his family while attending school or who is attending school at his own expense.

PART 631—WAR HOUSING PROGRAM; POLICY
RENTAL AND OCCUPANCY

Section 631.2 is hereby amended, effective January 24, 1947, to read as follows:

§ 631.2 *Rental and occupancy.* Persons seeking admission to vacant units in these projects should make application to the project manager, to the local authority, or to the regional office having jurisdiction over the project. All projects are subject to the OPA maximum rent regulations. Generally, such rents shall be fair rentals based on value. Where rents charged to families constitute an excessive proportion of family income such rents will, upon application of the tenant but not prior to six months after admission, be adjusted to the net anticipated family income, subject however, to the provision that the adjusted rent to be charged will not be less than the minimum rent established for the project. Families of servicemen and veterans of World War II and families of war workers may, when warranted by family income, have their rents adjusted at admission or any time subsequent thereto, but not below the established minimum rent. PART 631—WAR HOUSING PROGRAM; POLICY
DISPOSITION OF FEDERALLY OWNED WAR
HOUSING PROJECTS

Section 631.4 (11 F. R. 177A-913) is hereby amended, effective January 22, 1947, by adding paragraph (e) thereto as follows:

§ 631.4 *Disposition of federally owned war housing projects* * * *

(e) *Reconsideration of temporary character determinations.* The FPHA is responsible under section 313 of the Lanham Act for making determinations of temporary character for all war housing under its jurisdiction. Such housing, by terms of the act, is to be removed not later than two years after the termination of the emergency declared by the President on September 8, 1939.

The FPHA recognizes that there may be some instances in which communities may wish to have dwellings which are now classified as temporary remain as part of their permanent housing supplies: *Provided*, That the dwellings are physically changed in such manner that they are no longer of temporary character. Accordingly, it shall be the policy of the FPHA to give consideration to changes in determinations of temporary character when a community so recommends in its disposition plan (see paragraph (b) of this section) and the prospective purchaser complies with FPHA

minimum requirements for physical changes in the structures which will eliminate their substandard character.

The following steps must be taken in connection with changes of temporary character determinations:

(1) The community must recommend in the disposition plan, or in subsequent amendments to such plan, that the housing remain in the community, provided that its temporary character is changed, and that FPHA standards for permanent housing can and will be met.

(2) Any prospective purchaser shall submit plans and specifications of remodeling to the FPHA which shall review them to determine if, after alteration, the project will conform to FPHA minimum requirements for eliminating its substandard character.

(3) If the FPHA agrees that the remodeling will change the character of the housing, the sale of the property may then be effected with such legal safeguards as may be necessary to give the Government a right to enforce the agreement and the making of the required changes.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Office of Indian Affairs

[25 CFR, Part 130]

COLORADO RIVER INDIAN IRRIGATION
PROJECT

OPERATION AND MAINTENANCE CHARGES

JANUARY 23, 1947.

Pursuant to section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (Pub. Law 404, 79th Cong.), and the acts of Congress approved August 1, 1914 and March 7, 1928 (38 Stat. 583, 45 Stat. 210, 25 U. S. C. 385, 387), and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs September 14, 1946 (11 F. R. 10297), notice is hereby given of intention to amend §§ 130.6 to 130.8a inclusive, of Title 25, Code of Federal Regulations in the following particulars:

1. By reducing the basic annual per acre operation and maintenance assessment rate for the delivery of water not to exceed 4 acre feet per acre per annum, from \$4.50 to \$3.50 per acre per annum.

2. With the approval of the Superintendent of the Colorado River Indian Agency a reasonable quantity of water necessary to carry away alkalinized salts may be furnished to certain tracts of lands planted to rice with a view to reclaiming the land for not more than two

successive years by payment of \$3.50 per acre per annum.

3. Water may be delivered to irrigate certain Indian lands not under lease to non-Indian lessees in Townships 8 and 9 N., Ranges 20 and 21 W., S&GRBM, upon the landowners making a partial payment amounting to \$1.75 per acre per annum, until such time as in the opinion of the Superintendent the lands are subjugated to the standard being followed in the development of new lands in other parts of the project. The remaining unpaid part of the \$3.50 basic charge in such cases shall stand as a lien against the land until paid.

4. To provide that water may be delivered through the project system to residents using reservation lands for stock purposes only by payment in advance of \$1.00 for each filling of a stock-water tank.

5. By revising § 130.8a of the existing order of January 31, 1946 to read as follows:

§ 130.8a *Advance payment may be waived.* Upon certification by the Superintendent that an Indian farming his own land or a tribal assignment, not to exceed 10 acres, is financially unable to pay the required charges on the due dates, water may be delivered to not to exceed such ten acres farmed by such Indian. The charges therefor shall be entered on the accounts, and will stand as a first lien against the land until paid but without penalty for delinquency.

The foregoing proposed changes are to become effective beginning with the irrigation season of 1947 and to continue in effect thereafter until further notice.

Interested persons are hereby given an opportunity to participate in preparing the proposed amendments by submitting their views and data or arguments in writing to William Zeh, District Director, U. S. Indian Service, 4100 Rhoads Circle, Phoenix, Arizona, within 30 days from the date of the publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

[Docket No. 6768]

FM BROADCASTING OTHER THAN NON-COMMERCIAL EDUCATIONAL BROADCAST SERVICE

PROMulgation of Rules and Regulations
and Standards of Good Engineering Practice

JANUARY 16, 1947.

1. Notice is hereby given of proposed rule making in the above entitled matter.

PROPOSED RULE MAKING

2. A new paragraph (d) is proposed to be added to § 3.203 of Part III, Subpart B of rules and regulations as follows:

(d) No assignments will be made on Channels 297, 298, 299 and 300 until July 1, 1947.

3. Following a public hearing on July 12, 1946, the Commission promulgated § 3.204 (c) (11 F. R. 9703) of the rules and regulations withholding, for the period ending June 30, 1947, the assignment of one out of every five Class B channels which have been tentatively allocated for various areas throughout the United States. During that hearing, the advisability of reserving Class A channels was suggested. The Commission's public notice of July 18, 1946, announcing the reservation of Class B FM channels, stated that the Commission would study further the question of reserving Class A channels.

4. Due to the heavy demand for Class A FM stations in certain areas, such as those adjacent to New York City and Los Angeles, it appears necessary to provide means which will permit an equitable distribution of Class A stations and maximum utilization of Class A channels. It is believed that a reservation policy for Class A channels, similar to the present Class B reservation policy is desirable for these purposes. It has become apparent that communities in some congested areas may ultimately lack Class A service due solely to the assignment of

all available channels prior to receipt of applications from these communities. Since it is not known for what cities Class A applications will be received, the Commission cannot now devise an allocation of Class A channels for congested areas which would make maximum use of the available frequencies.

5. In the areas of New York City and Los Angeles, the demand for Class A channels is rapidly approaching the number of channels available for assignment. The Commission will continue to grant Class A stations in these and other areas on channels below 297 where such assignments are permissible from an interference standpoint. Station locations will, therefore, be important in determining whether additional Class A assignments may be made at this time in the New York City and Los Angeles areas. Applications received which cannot be granted due to the unavailability of channel assignments will be held for consideration until July 1, 1947, at which time all pending applications will be given equal consideration regardless of their respective filing dates.

6. At the time such applications are considered by the Commission consideration will also be given to the possibility of changing Class A frequency assignments in congested areas in order that improved and additional allocation of Class A facilities may be permitted.

7. On the basis of the information presently available, it does not appear

that adoption of the proposed rule would preclude the grant of any application now on file. The proposed rule would affect only future applications for the areas of Boston, Chicago, Los Angeles and New York City. It is particularly important for Class A FM channels to be reserved in these areas in order to insure so far as possible that the numerous small communities surrounding these large cities have an opportunity to obtain their own FM station.

8. The proposed rule is issued under the authority of sections 303 (c), 303 (r), and 307 (b) of the Communications Act of 1934, as amended.

9. Any interested person who is of the opinion that the proposed rule should not be adopted or should not be adopted in the form set forth, may file with the Commission on or before January 31, 1947, a written statement or brief setting forth his comments. The Commission will consider these written comments before adopting the proposed rule and if comments are submitted which appear to warrant the Commission holding an oral argument, notice of the time and place of such oral argument will be given.

ORDER DESIGNATING APPLICATION FOR
CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Missouri Broadcasting Corporation (WIL), St. Louis, Missouri, Docket No. 8056, File No. B4-P-5606; Southern Illinois Broadcasting Company, Inc., Centralia, Illinois, Docket No. 7129, File No. B4-P-4181; Metropolitan Broadcasting Corporation, Belleville, Illinois, Docket No. 7843, File No. B4-P-5034; Robert L. Kern and Richard P. Kern, d/b as Belleville News-Democrat, Belleville, Illinois, Docket No. 7844, File No. B4-P-5176; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 16th day of January 1947;

The Commission having under consideration the above-entitled application of Missouri Broadcasting Corporation (WIL), requesting a construction permit to change the operating assignment of existing station WIL from 1230 kc, with 250 watts power, unlimited time, to 1430 kc, with 5 kw power, unlimited time, to change transmitter site, install new

transmitter, and install a directional antenna for day and night use; and

It appearing, that the Commission on September 19 and October 4, 1946 designated for hearing in a consolidated proceeding the above-entitled applications of Southern Illinois Broadcasting Company, Inc., Metropolitan Broadcasting Corporation, and Robert L. Kern and Richard P. Kern, d/b as Belleville News-Democrat, all requesting the frequency 1430 kc, with 1 kw power, unlimited time (the first at Centralia, and the latter two at Belleville, Illinois);

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Missouri Broadcasting Corporation (WIL) be, and it is hereby, designated for hearing in the above-consolidated proceeding, to be held on January 29, 1947, at Washington, D. C., upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate Station WIL as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WIL as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the

requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station WIL as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station WIL as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station WIL as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated September 19 and October 4, 1946, designating for consolidated hearing the said applications of Southern Illinois Broadcasting Company, Inc., Metropolitan Broadcasting Corporation, and Robert L. Kern and

Richard P. Kern, d/b as Belleville News-Democrat, be, and they are hereby, amended to include the said application of Missouri Broadcasting Corporation.

By the Commission.

Robinson, Bluefield, West Virginia, Docket No. 7824, File No. B2-P-5160; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 16th day of January 1947;

The Commission having under consideration the above-entitled application of J. Lindsey Alley, George E. Shumate, and E. Bernard Jarrett, a partnership, d/b as Radio Bluefield Company, for a construction permit for a new standard broadcast station to operate on 1240 kc, 250 w, unlimited time, at Bluefield, West Virginia; and

It appearing, that the Commission, on September 5, 1946, designated for hearing in a consolidated proceeding the applications of G. Lester Hash, N. Joe Rahall, and Fred William Simon, d/b as The Bluefield Broadcasting Company (File No. B2-P-4990, Docket No. 7823) and Odes E. Robinson (File No. B2-P-5160, Docket No. 7824), and, on December 17, 1946, the application of Pocahontas Broadcasting Corporation (File No. B2-P-5466, Docket No. 8006), all requesting a construction permit for a new standard broadcast station to operate on 1240 kc, 250 w, unlimited time, at Bluefield, West Virginia;

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of J. Lindsey Alley, George E. Shumate, and E. Bernard Jarrett, a partnership, d/b as Radio Bluefield Company, be, and it is hereby, designated for hearing in the above consolidated proceeding, to be held on January 29, 1947 at Bluefield, West Virginia, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the

proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated September 5 and December 17, 1946, designating for hearing in a consolidated proceeding the applications of G. Lester Hash, N. Joe Rahall, and Fred William Simon, d/b as The Bluefield Broadcasting Company, Odes E. Robinson, and Pocahontas Broadcasting Corporation, be, and they are hereby, amended to include the above-entitled application of J. Lindsey Alley, George E. Shumate, and E. Bernard Jarrett, a partnership, d/b as Radio Bluefield Company.

LICENSE WHIZ ZANESVILLE, OHIO¹

PUBLIC NOTICE CONCERNING PROPOSED
ASSIGNMENT

The Commission hereby gives notice that on January 17, 1947, there was received an application (B2-AL-579) to the proposed assignment of the license for AM Station WHIZ, Zanesville, Ohio and construction permit conditionally granted for a new FM broadcasting station at that place from Southeastern Ohio Broadcasters, Inc. to Southeastern Broadcasting System, Inc. (Ohio corporation) Citizens National Bank Building, Zanesville, Ohio. The proposal to assign the license and conditional construction permit arises out of a contract of January 7, 1947 between the present licensee and the proposed assignee pur-

¹ Section 1.321, Part I, Rules of practice and procedure.

suant to which the former agrees to sell to the latter Station WHIZ as a going business together with all assets and properties described in a list attached to the contract (not including, however, cash, securities, accounts receivable, or choses in action); the business of WHIZ to include the proposed new high frequency station for which a conditional construction permit has already been granted. The purchase price is \$272,500 of which \$100,000 was paid in cash upon filing of the application and the remaining \$172,500 to be paid in cash upon the closing date fixed by the contract as within 20 days of Commission approval, which is to be reduced by the sum of \$2,000 each month from January 1, 1947 to the closing date. Further details as to the arrangements may be found with the application and associated papers on file in the offices of the Commission.

Pursuant to § 1.321 adopted July 25, 1946, the Commission was advised at the time the application was filed (January 17, 1947) that beginning January 20, 1947 notice of the application would be published in the "Times Recorder", a local paper of general circulation in conformity of said rule. No action will be had upon the application for a period of 60 days from January 20, 1947, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract.

FEDERAL POWER COMMISSION

[Docket No. G-819]

INTERSTATE NATURAL GAS CO., INC.

ORDER FIXING DATE OF HEARING

JANUARY 24, 1947.

Upon consideration of the application filed November 21, 1946, in Docket No. G-819, by Interstate Natural Gas Company, Inc. (Applicant), a Delaware corporation with its principal place of business at Monroe, Louisiana, and authorized to do business in the States of Louisiana and Mississippi, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following described natural-gas pipeline facilities subject to the jurisdiction of the Federal Power Commission:

A meter setting at a point at the intersection of Applicant's main transmission pipeline with State Highway 880 in East Baton Rouge Parish, Louisiana.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the aforesaid described facilities for the purpose of delivering and selling natural gas to Baker Gas Company, Inc. for resale for domes-

tic, commercial and industrial use in the town of Baker, Louisiana;

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946). Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the **FEDERAL REGISTER** on December 11, 1946 (11 F. R. 14250).

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the 18th day of February, 1947, at 9:30 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above entitled proceedings; *Provided, however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a non-contested hearing forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: January 24, 1947.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-130]

INTERSTATE POWER CO.

SUPPLEMENTAL FINDINGS AND ORDER
APPROVING AMENDED PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 24th day of January A. D., 1947.

Interstate Power Company ("Interstate"), a registered holding company and a subsidiary of Ogden Corporation ("Ogden"), also a registered holding company, having filed a plan and amendments thereto, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), such plan providing, in general, for a reorganization of Interstate whereby there will be initially issued and outstanding \$19,400,000 principal amount of new first mortgage bonds and 3,000,000 shares of new common stock with a par value of \$3.50 per share; for raising working capital by Interstate; for the preservation of the relative rights of its security holders pending the resolution of issues relating to the rank and status of Ogden's present holdings in Interstate; for sale of the new first mortgage bonds and a portion of the shares of new common stock; for cancellation of the outstanding common stock and payment of the outstanding first mortgage bonds at par; and for either of the following alternatives, the choice of one or the other of such alternatives to depend upon Interstate's ability or inability to raise \$18,610,500 through the sale of a maximum of 2,700,000 shares of the new common stock:

(1) the payment at par of Interstate's debt securities junior to the first mortgage bonds, the distribution to preferred stockholders of the shares of new common stock not sold to realize cash for the payment of Interstate's outstanding debt securities and for working capital, and the distribution to preferred stockholders other than Ogden of certificates of contingent interest in all distributions to Ogden; or (2) the deposit in escrow (for the benefit of holders of Interstate's securities junior to the first mortgage bonds) of the shares of new common stock not sold to realize cash for the payment of the outstanding first mortgage bonds and for working capital; and

Said plan having been filed for the stated purpose of complying with the provisions of section 11 (b) of the act and with the Commission's order dated May 20, 1943, directed to Ogden and its subsidiary companies requiring, among other things, that Interstate be recapitalized so as fairly and equitably to distribute voting power among its security holders; and

Public hearings having been held after appropriate notice, and the Commission having considered the record and having issued its findings and opinion on January 20, 1947, finding said plan to be necessary to effectuate the provisions of section 11 (b) of the act and, if modified in certain respects, to be fair and equitable to the persons affected thereby; and

Interstate having filed on January 23, 1947, an amendment to said plan containing the modifications suggested by the Commission in its findings and opinion of January 20, 1947; and

Interstate having requested that the Commission's order herein conform to the requirements specified in Supplement R and section 1808 (f) of the Internal Revenue Code, as amended; and

Interstate having requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate District Court of the United States to enforce and carry out the terms and provisions of said plan as modified;

It is found, in accordance with said findings and opinion dated January 20, 1947, that said plan, as modified, is necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to the persons affected thereby.

It is ordered, Pursuant to section 11 (e) and the other applicable provisions of the act, that said plan as modified be, and it hereby is, approved, subject to the conditions specified in Rule U-24 and to the following additional terms and conditions:

(1) That this order shall not be operative to authorize the consummation of the proposed transactions until an appropriate District Court of the United States, upon application thereto, shall have entered an order enforcing said plan, as modified.

(2) That jurisdiction is generally reserved to the Commission to entertain such further proceedings, to make such supplemental findings and to take such further action as it may deem appropriate in connection with said plan, as modified, the transactions incident thereto and the consummation thereof, and to take such further action as it may deem necessary or appropriate to effectuate the provisions of section 11 (b) of the act; and that jurisdiction is specifically reserved to consider and determine the following matters:

(a) The reasonableness and appropriate allocation of all fees, expenses and other remuneration incurred and to be incurred in connection with said plan, as modified, and the transactions incident thereto;

(b) The applications and declarations of Interstate and Ogden relating to the issuance, sales and acquisitions of securities proposed by them, including the invitations for bids and the prices and spreads pertaining to the proposed sales

of first mortgage bonds and shares of new common stock;

(c) The issues raised concerning the rank and status of the securities of Interstate held by Ogden;

(d) The amount of Ogden's liability, if any, under the Contingent Liability Agreement proposed in said plan, as modified, and in respect of interest payments heretofore received by Ogden from Interstate and not escrowed;

(e) The fair and equitable disposition of the assets heretofore escrowed under Escrow No. 1 and to be escrowed under Escrow No. 2 proposed in said plan as modified;

(f) Such supplemental plans as may be filed pursuant to Sections 11 (d) and (e) of the Act.

It is further ordered and recited, That the steps and transactions involved in the consummation of said plan, as modified, and recited in paragraphs (1) through (7) set forth below, are necessary or appropriate to effectuate the provisions of section 11 (b) of the act and are necessary or appropriate to the integration or simplification of the holding company system of which Interstate Power Company and Ogden Corporation are members, and are hereby authorized, approved and directed; such steps are transactions being specified and itemized as follows:

(1) The issuance of \$19,400,000 of First Mortgage Bonds $\frac{1}{2}$ % Series due 1971 of Interstate Power Company to the underwriters or persons who will become the purchasers of the same;

(2) In the event, Alternative I of the Plan is made effective:

(a) The issuance of not exceeding 2,700,000 shares of new common stock of Interstate Power Company to the underwriters or persons who will become the purchasers of the same;

(b) The issuance, exchange and distribution of the balance of the 3,000,000 shares of new common stock of Interstate Power Company remaining unsold and scrip certificates for new common stock to the holders of its presently outstanding \$7 Dividend Series Preferred Stock and \$6 Dividend Series Preferred Stock in accordance with said plan as modified;

(3) The application by Interstate Power Company of the proceeds of the sale of the new First Mortgage Bonds and the new common stock toward the retirement of the First Mortgage Gold Bonds, 5% Series due 1957, the 6% Gold Debentures due 1952 and the 6% Demand Note in the principal amount of \$2,475,000 of Interstate Power Company;

(4) The issuance, transfer, exchange and distribution of Contingent Interest Certificates by Ogden Corporation to the security holders of Interstate Power Company, as set forth in subsection (5) of paragraph 6 (A) of Article IV of said plan as modified and subsection 2 (h) of paragraph 6 (B) of Article IV of said plan as modified;

(5) The issuance, transfer, exchange and distribution by Chemical Bank & Trust Company as Escrow Agent under Escrow No. 2 of Debenture Escrow Certificates, Note Escrow Certificates and Preferred Escrow Certificates to the se-

curity holders of Interstate Power Company as provided in said plan as modified;

(6) The transfer by Chemical Bank & Trust Company as Escrow Agent under Escrow No. 2 of shares of the new common stock of Interstate Power Company held under said Escrow Agreement to the persons who may become the purchasers of the same and/or to escrow certificate holders in exchange for escrow certificates, pursuant to any plan for the sale and/or distribution of such new common stock in accordance with subsection (2) (e) of paragraph 6 (B) of Article IV of said plan as modified;

(7) The transfer and exchange by the present holders thereof of 6% Gold Debentures, the 6% Demand Note and shares of \$7 Dividend Series and \$6 Dividend Series Preferred Stock of Interstate Power Company for new common stock and scrip for new common stock of Interstate Power Company or in exchange for escrow certificates as provided in said plan as modified.

OGDEN CORP.

SUPPLEMENTAL ORDER PERMITTING AN EXTENSION OF TIME TO MAIL REPORT

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of January A. D., 1947.

The Commission having on April 18, 1946, entered an order (Holding Company Act Release No. 6564) granting under the applicable sections of the Public Utility Holding Company Act of 1935 an application of Ogden Corporation, a registered holding company, proposing the use of all or any portion of its cash resources not required for other corporate purposes, estimated at approximately \$3,000,000, to acquire, purchase, invest and reinvest from time to time in any securities, assets or real or personal property of any sort, other than securities of a public utility company and public utility assets as defined in the act, from persons, firms or corporations other than affiliates of Ogden, said order having prescribed, among others, the following condition:

(4) At least semi-annually, Ogden shall transmit by mail, postage prepaid, to each stockholder of record, a report containing all the information and financial statements, or their equivalent, specified in clauses (1) to (6) inclusive of section 30(d) of the Investment Company Act of 1940. The first such report shall be made as of a date not later than the close of the fiscal year or half-year first occurring on or after June 30, 1946. Each report shall be mailed within 30 days after the date as of which the report is made, or within such longer period of time as the Commission may permit by order upon application. Such reports shall comply with the requirements of Rule N-30D-1 (b) and (c) of

NOTICES

the general rules and regulations under the Investment Company Act of 1940.

Ogden Corporation having on January 14, 1947, filed a request seeking an extension to March 31, 1947, of the time within which it is required by our aforesaid order to mail to its stockholders a report as of the close of its fiscal year, December 31, 1946, containing the information prescribed by said order;

The Commission having considered said request of Ogden Corporation, and deeming it appropriate under the circumstances that the request be granted;

It is ordered, That the time within which Ogden Corporation is required by our order of April 18, 1946, to mail to its stockholders a report as of the close of its fiscal year, December 31, 1946, containing the information prescribed by said order be, and hereby is, extended to March 31, 1947.

COLUMBIA GAS & ELECTRIC CORP. ET AL.

SUPPLEMENTAL ORDER FOR RECLASSIFICATION,
ISSUANCE AND EXCHANGE OF STOCK

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of January 1947.

In the matters of Columbia Gas & Electric Corporation, Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, File No. 70-1266; Columbia Gas & Electric Corporation, United Fuel Gas Company, Warfield Natural Gas Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company, Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, File No. 70-965.

The Commission having, on December 23, 1946, issued its order in the above-captioned matters, approving, inter alia, the acquisition by United Fuel Gas Company ("United Fuel") of the assets of Warfield Natural Gas Company, Huntington Development and Gas Company and Point Pleasant Natural Gas Company, all subsidiaries of Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and the dissolution of the latter three subsidiaries; and

The Commission having by said order approved as a related part of the above acquisition the reclassification by United Fuel of its authorized common stock from 400,000 shares of \$1 par value into 400,000 shares of \$25 par value and the issue of 381,201 shares of such reclassified common stock in exchange for its then outstanding 381,201 shares of \$1 par value stock, transferring in connection therewith to common stock account \$9,148,824 from capital surplus, but having omitted the itemization and specification of this

particular transaction as being necessary or appropriate to effectuate compliance with section 11 (b) of the act;

It is therefore ordered, That said reclassification, issuance and exchange of stock are necessary or appropriate to the simplification of the corporate structure of the holding company system of which Columbia and United Fuel are members and are necessary or appropriate to effectuate the provisions of subsection (b) of section 11 of the Public Utility Holding Company Act of 1935.

SOUTH CAROLINA ELECTRIC & GAS CO.
ET AL.

ORDER MODIFYING CONDITION AND GRANTING
EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of January 1947.

In the matter of South Carolina Electric & Gas Company, General Gas & Electric Corporation, Associated Electric Company, General Public Utilities Corporation, File No. 70-1362.

General Public Utilities Corporation ("GPU"), a registered holding company, its subsidiaries, Associated Electric Company ("Aelec") and General Gas & Electric Corporation ("Gengas"), also registered holding companies, and Gengas' subsidiary, South Carolina Electric & Gas Company ("South Carolina"), having filed joint applications-declarations, as amended, pursuant to sections 6 (a), 7, 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder regarding, among other things, the acquisition by GPU, upon the dissolution of Gengas, of 2,930 shares of the \$50 par value 5% cumulative preferred stock of South Carolina; and

The Commission having, by order dated September 26, 1946, granted and permitted said applications-declarations, as amended, to become effective, subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that GPU would, by the sale for cash through brokers on the New York Stock Exchange, dispose of the 2,930 shares of preferred stock of South Carolina within 60 days from the date upon which such shares were acquired; and

GPU having advised the Commission that during the period between November 15, 1946 (the date upon which GPU acquired the 2,930 shares of preferred stock of South Carolina) and December 31, 1946, it had disposed by sales through brokers on the New York Stock Exchange of 1,130 shares of such stock and that a total of only 1,500 shares were traded on

such Stock Exchange during that period; and

GPU having requested the Commission to extend to May 1, 1947 the time by which it might dispose of the balance of 1,800 shares of such preferred stock; and

The Commission having considered such request and deeming it appropriate that it be granted:

It is ordered, That the time within which GPU may dispose of the balance of the 2,930 shares of the preferred stock of South Carolina acquired by it upon the dissolution of Gengas by the sale of such shares for cash through brokers on the New York Stock Exchange be, and hereby is, modified to the extent necessary to extend the time within which such disposition may be consummated to May 1, 1947.

EAST COAST PUBLIC SERVICE CO. AND VIRGINIA EAST COAST UTILITIES, INC.

ORDER PERMITTING DECLARATION TO BECOME
EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of January A. D., 1947.

East Coast Public Service Company, a registered holding company, and its public utility subsidiary company, Virginia East Coast Utilities, Incorporated, have filed a joint declaration pursuant to sections 7 and 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder, regarding the proposed issue and sale by Virginia East Coast Utilities, Incorporated, of its promissory note in the principal amount of \$200,000, bearing interest at the rate of 2½% per annum, maturing six months after date of issue, to the Baltimore National Bank of Baltimore, Maryland. The proceeds of such sale are to be used in part to retire its present loan of \$150,000 from the Baltimore National Bank, and in part for the construction of property additions.

East Coast Public Service Company proposes to guarantee the repayment of such note with interest to the Baltimore National Bank.

Said joint declaration having been filed on the 3d day of January, 1947, and an amendment to the said declaration having been filed on January 10, 1947, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said joint declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and request having been made for accelerated action upon the joint declaration, as amended; and

The Commission finding with respect to said joint declaration that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint declaration be permitted to become effective; and

The declarants having requested that the Commission take appropriate action to accelerate its order herein and that the order become effective forthwith, and the Commission deeming it appropriate to grant such request;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that said joint declaration be, and the same hereby is, permitted to become effective forthwith.

NEW BEDFORD GAS AND EDISON LIGHT CO.
AND NEW ENGLAND GAS AND ELECTRIC
ASSN.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d of January 1947.

Notice is hereby given that a joint application, as amended, has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by New England Gas and Electric Association ("New England"), a registered holding company, and its subsidiary, New Bedford Gas and Edison Light Company ("New Bedford"). Applicants have designated sections 6 (b) and 10 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than February 3, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 3, 1947 said joint amended application, as filed or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint application, as amended, which

is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

New Bedford proposes to issue and sell 3,750 additional shares of its common capital stock of the par value of \$25 per share, at a price of \$66 1/2 per share. The proceeds from the sale of such stock are to be used for the payment of \$250,000 on its long-term promissory notes. Under the laws of Massachusetts, in which New Bedford is incorporated, the holders of its presently outstanding 213,696 shares of common capital stock are entitled to purchase their proportionate share of the 3,750 additional shares proposed to be issued and sold. New England, as the holder of 207,376 shares (97.04%) of such capital stock, has indicated that it will purchase its proportionate share of the additional shares to be issued at the price of \$66 1/2 per share. In the event any of the holders of the remaining 6,320 shares of outstanding capital stock do not subscribe for their proportionate share, New Bedford will offer such unsubscribed for shares for sale at public auction. New England states it will bid \$66 1/2 per share for such unsubscribed for shares at such auction.

Applicants state that the issuance by New Bedford of the 3,750 additional shares of its common stock is subject to approval by the Department of Public Utilities of Massachusetts which has approved such issuance and sale and a copy of such approval has been filed with the application. Applicants state that no other commission, other than the Department of Public Utilities of Massachusetts and this Commission, has jurisdiction over the proposed transactions.

The joint application, as amended, requests that the Commission's order granting the application be issued at the earliest date possible and that it become effective upon its issuance.

By the Commission.

ENGLAND GAS AND ELECTRIC ASSN.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of January 1947.

Notice is hereby given that a joint application, as amended, has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by New England Gas and Electric Association ("New England"), a registered holding company, and its subsidiary, Cape & Vineyard Electric Company ("Cape & Vineyard"). Applicants have designated sections 6 (b) and 10 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than February 5, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 5, 1947 said joint amended application as filed or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint application, as amended, which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Cape & Vineyard proposes to issue and sell 3,000 additional shares of its \$25 par value common capital stock at a price of \$50 per share. The proceeds from the sale of such stock are to be used for the partial payment of its long-term promissory notes amounting to \$161,250, leaving \$11,250 of such notes outstanding. New England, as the holder of all of the presently outstanding 59,000 shares of the common capital stock of Cape & Vineyard, will purchase the 3,000 additional shares at the price of \$50 per share.

Applicants state that the issuance by Cape & Vineyard of the 3,000 additional shares of its common stock is subject to approval by the Department of Public Utilities of Massachusetts which has approved such issuance and sale and a copy of such approval has been filed with the application. Applicants state that no other commission, other than the Department of Public Utilities of Massachusetts and this Commission, has jurisdiction over the proposed transactions.

The joint application, as amended, requests that the Commission's order granting the application be issued at the earliest date possible and that it become effective upon its issuance.

By the Commission.

PLYMOUTH COUNTY ELECTRIC CO. AND NEW
ENGLAND GAS AND ELECTRIC ASSN.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of January 1947.

NOTICES

Notice is hereby given that a joint application, as amended, has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by New England Gas and Electric Association ("New England"), a registered holding company, and its subsidiary, Plymouth County Electric Company ("Plymouth County"). Applicants have designated sections 6 (b) and 10 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than February 5, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 5, 1947 said joint amended application, as filed or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint application, as amended, which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Plymouth County proposes to issue and sell 2,518 additional shares of its \$25 par value common capital stock at a price of \$31.25 per share. The proceeds from the sale of such stock, plus treasury cash, are to be used for the payment of its long-term promissory notes amounting to \$79,500. New England, as the holder of all of the presently outstanding 63,682 shares of the common capital stock of Plymouth County, will purchase the additional 2,518 shares at the price of \$31.25 per share.

Applicants state that the issuance by Plymouth County of the 2,518 additional shares of its common stock is subject to approval by the Department of Public Utilities of Massachusetts which has approved such issuance and sale and a copy of such approval has been filed with the application. Applicants state that no other commission, other than the Department of Public Utilities of Massachusetts and this Commission, has jurisdiction over the proposed transactions.

The joint application, as amended, requests that the Commission's order granting the application be issued at the earliest date possible and that it become effective upon its issuance.

By the Commission.
